

Merritt Properties - Data Management

Opportunity

With over 19 million square feet of commercial real estate throughout Maryland, North Carolina, Florida and Virginia, Merritt Properties serves every type of business. Merritt Properties identified a need to better monitor the energy performance of buildings across their portfolio.

Our Solution

MD Energy Advisors worked with Merritt Properties to gather, organize and analyze energy data to prioritize their energy efforts. By having MD Energy Advisors actively monitor and report the energy performance of each building, MD Energy Advisors has realized some short-term success already in the first few months of monitoring.

“Monitoring and managing energy expenses for tenants is a top priority at Merritt Properties. MD Energy Advisors made an effort to understand what mattered to us, and they went above and beyond to deliver.”

Michael D. Scheiner
PROPERTY MANAGER

MD Energy Advisors makes energy choices simple.
