

MD ENERGY ADVISORS

Sagamore Pendry Baltimore

Opportunity

Montage International is passionate about sustainability at every level of the company and at every hotel and resort. Sagamore Pendry Baltimore joins the ranks with a commitment to sustainability and preservation, honoring not only natural environments but also the surrounding neighborhood. Sagamore Pendry Baltimore is committed to green power purchasing and requested assistance from MD Energy Advisors with understanding renewable energy purchasing options.

Our Solution

MD Energy Advisors assisted Sagamore Pendry Baltimore with purchasing 100% Renewable Energy for their luxury boutique hotel. After presenting the options for traditional “brown” energy and 100% Renewable Energy, Sagamore Pendry Baltimore decided to purchase 100% Renewable Energy and to further explore energy management options.

“Incorporating sustainability into all aspects of our operations is extremely important to us. The team at MD Energy Advisors helped us with understanding our options as well as purchasing 100% Renewable Energy. We look forward to continuing to work with them.”
