

MD ENERGY ADVISORS

The Meridian Group

Opportunity

The Meridian Group is at the forefront of sustainability in the Greater Washington, DC metro area. The Meridian Group formed an ESG Committee to execute sustainability initiatives throughout their portfolio. One of the items on the committee's agenda was to offset their portfolio's electricity consumption with 100% Green Energy at their Washington DC assets.

Our Solution

MD Energy Advisors assisted The Meridian Group with purchasing 100% Green Energy for both their newly acquired and existing assets in Washington, DC. After presenting the cost differential, The Meridian Group made the conscience decision to purchase 100% Green Energy and to go above and beyond what is required by the District of Columbia.

“Providing leadership in the Washington DC real estate market is extremely important to us. The team at MD Energy Advisors was able to explain the intricacies of 100% Green Energy purchasing in a way that made it easy for us to make an informed decision. We hope to set an example for our peers in being stewards of the environment.”
